SUMMARY

Recent Computer Engineering graduate with hands-on experience in data analysis using Excel, Power BI, and SQL for data extraction and analysis, specializing in data cleaning and dashboard development. Demonstrated ability to analyze large datasets, build interactive dashboards, and generate insights that improved reporting efficiency by 30% and supported data-driven decision-making.

TECHNICAL SKILLS

Skill: Excel **Languages:** SQL, Python **Visualization Tools:** Power BI, Excel
Soft Skill: Effective Written Communication, Problem Solving

ADDITIONAL INFORMATION

Person with Hearing Impairment (PwD) - comfortable with written communication through email, chat.

CORE COMPETENCIES

• Data Cleaning • Dashboard Development • KPI Reporting & Analysis • Reporting using Excel, PowerBi
• SQL (Querying) • MIS Reporting • Automated Workflows • VLOOKUP • HLOOKUP • Pivot Tables

INTERNSHIP EXPERIENCE

Data Analyst Intern **Aug 2025 - Mar 2026**
AccioJob Pvt Ltd (On-Site) **Pune, Maharashtra**

- Analyzed structured datasets using Excel, identifying patterns that improved reporting accuracy and decision-making.
- Designed & Developed interactive Power BI dashboards to track KPIs, enabling faster business insights.
- Automated daily reporting workflows using Excel formulas and Power BI, reducing manual effort and improving efficiency.
- Performed data cleaning and transformation, ensuring high-quality datasets for analysis.
- Leveraged AI tools to enhance data workflows and improve productivity.

PROJECTS

Sales Performance Analysis Using Excel

- Analyzed 1,000+ sales records using Advanced Excel to identify key trends and insights.
- Used VLOOKUP and HLOOKUP for data validation and accuracy improvement by 20%
- Created Pivot Tables to summarize sales data, reducing manual analysis time by 30%
- Generated MIS reports to track monthly growth, identifying a 15% increase in sales.

E-Commerce Sales Analysis

- Analyzed 50,000+ rows of sales data records to identify regional growth opportunities and business trends.
- Designed interactive visuals that helped track a 15% increase in month-over-month sales.
- Automated data cleaning and transformation processes, reducing reporting time by 30%.
- Calculated profit margins, identifying products contributing to 25% of revenue
- Validated data records to ensure 100% data integrity and eliminate discrepancies in customer shipping records.

CERTIFICATIONS

• Data Analytics – AccioJob • DA With Ai • DA Viz (NASBA) • DA Python - IBM • SQL - Newton

EDUCATION

2021 - 2025	B.E Computer Engineering Vishwabharati Academy's College of Engineering, Ahmednagar	(CGPA 6.35)
2019 - 2021	12th HSC (Science) Chand Sultana Junior College, Ahmednagar	86.83%
2007 - 2019	10th (SSC) P. A Inamdar English Medium School, Ahmednagar	71.60%
